

# Harvard Medical School Curriculum Fellows Program Education Workshop Series

## Equity, Empathy, and Engagement for All Students

The value of inclusive scientific teams is increasingly recognized, but effective strategies to engage diverse students during education and training remain poorly implemented. Here we present practical tools to cultivate a fair learning environment. This workshop will include hands-on activities to approach and correct our own implicit biases..

**Tari Tan, Ph.D.**  
Curriculum Fellow, Neurobiology

**Rachel Wright, Ph.D.**  
Curriculum Fellow, Genetics
