

Governance & Ethics of Biotechnology

Nanocourse Series

The Scientific Citizenship Initiative (SCI) is offering a series of three practical Nanocourses for STEM graduate students to grapple with ethical, communication and leadership dilemmas that arise during the real-world implementation of biotechnology. Practice your teamwork and interpersonal skills and explore career options outside academia.

GENE DRIVES

Wednesday, February 19; 3 pm – 7 pm (dinner included)
Bok Center Learning Lab (Cambridge)

Friday, February 21; 3 pm – 5 pm
Warren Alpert 436 (Longwood)

LIFESPAN EXTENSION

Monday, March 23; 3 pm – 7 pm (dinner included)
Bok Center Learning Lab (Cambridge)

Wednesday, March 25; 3 pm – 5 pm
Warren Alpert 563 (Longwood)

NEURAL INTERVENTIONS

Wednesday, April 22; 3 pm – 7 pm (dinner included)
Northwest Science Building 353 (Cambridge)

Friday, April 24; 3 pm – 5 pm
Warren Alpert 563 (Longwood)

You can register for one, two or all three nanocourses.
Please note each course is limited to 20 students.
